INTRODUCTION

A keen understanding of the end-user requirement has allowed Fine Wear Healthcare to emerge as a key partner of the healthcare sector in India. Our range of products encompasses the critical elements that help healthcare organizations deliver on customer expectations. The combination of an experienced workforce & strict quality control procedures suitably places us to partner your organization in enhancing the quality of patient care.

We have been privileged to work with a diverse range of customers ranging from large corporate hospitals to local nursing homes. Our customers have consistently placed their faith in our products and services and have helped us grow from a manufacturing unit into an organization that has developed critical insight into the requirements of healthcare providers.

We have translated this insight into three focus areas -

Customisation - We understand the unique requirements of small and large organizations alike and work closely with our customers to transform their material needs into customised products.

Delivery - Our branch offices & supply-chain partners ensure timely delivery service of our quality products.

Quality - We understand that there can never be any compromise over quality and accordingly we lay strict emphasis on measuring quality and constantly upgrade our quality control processes to keep pace with globally acknowledged standards.

As the healthcare sector marches ahead into a new era of competitive growth amidst immense opportunity, our experience makes us suitably placed to partner your organization as you look towards constantly enhancing the quality of your patient-care.

Gowns

GOWN:

Our Gowns offer high-level protection without compromising on quality & comfort. We offer a range of products for the surgical gown using SMS, spunmelt composites such as BVB (Breathable Viral Barrier) and other film-bases composites. They are easy to wear for prolonged surgeries and meet all demands of surgical use. The soft knit cuffs are not only comfortable but their length facilitate closed gloving. They are a compatible with ethylene oxide, steam, and gas plasma sterilization.

SURGICAL GOWN

- It is made of SMS fabric and is also available with antistatic and alcohol-repellant finish.
- This product delivers high performance & provides high fluid and particulate barrier.
- It is also soft, strong, and low in lint.

REINFORCED GOWN

- The reinforced impervious zones on the arm & chest offer superior strength and protection against strike-through
- It also provides the extra level of comfort needed for extended surgical procedures.

BREATHABLE VIRAL BARRIER (BVB) GOWN

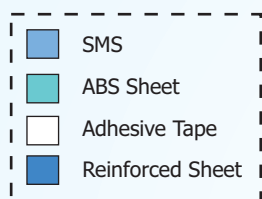

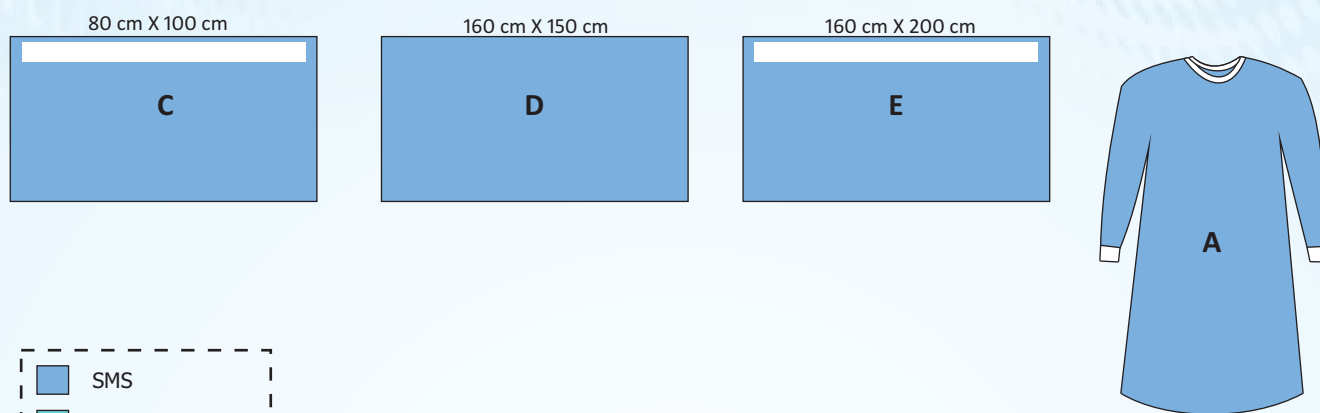

- It contains a monolithic breathable film that provides total barrier to viral, fluid, and particulate matter.
- The fabric is comfortable and easily drapeable.
- It is strong with good softness, high breathability, and provides excellent barrier properties against real world viruses causing infectious diseases such as HIV/AIDS, SARS and Avian Influenza.
- It is used for Surgeries that demand AAMI PB 70 Level 4 and EN 13795 High Performance.

Hygiene

&

Protective Products

SURGEON CAP

- We bring our clients a wide range of Surgeon Caps that are fabricated from high quality, light, air permeable Spunbond fabrics.

- They are ultrasonically sealed and are manufactured by machines, thus ensuring a high quality product at a very economical cost.

- Available in Tie-On & Elastic versions.

Available in blue / green / white.

FACE MASK

- Reduces the spread of infectious liquid droplets (carrying bacteria or viruses) that are created when the wearer coughs or sneezes.

- Designed to protect the wearer from inhaling air-borne bacteria or virus particles.

- Available in 2 / 3 ply.

Available in blue / green / white.

BOUFFANT CAP

- Completely covers the hair for use in cleanroom & other situations where it is important to avoid loose hairs.

- Unisex design & Universal size fits all.

- Manufactured by machines thus ensuring no manual handling.

- Available in blue / green / white.

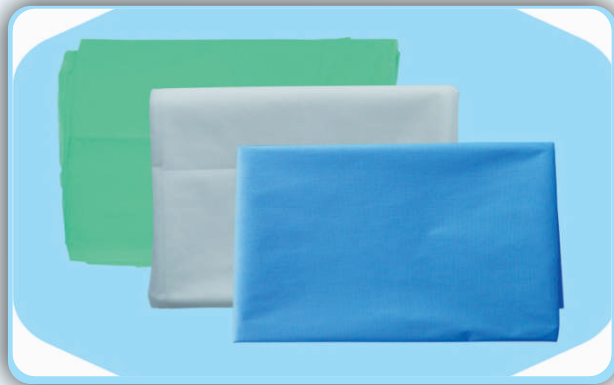

NON-WOVEN SHOE COVER

- Made of special Anti-skid & Anti-static material.
- Strong, durable and cost effective.
- Universal Size & available in blue / green / white.
- Long lasting and does not tear easily like PE shoe covers.

DISPOSABLE BEDSHEET & PILLOW COVERS

- Made of PP Spunbond, SMS & Spunlace material
- Hygienic & cost effective
- Available in different sizes & colours.
- Option of printing logos is available

WRAPPING SHEET

- Made of soft yet strong SMS fabric.
- High barrier and durability to maintain sterility.
- Stands up to handling.
- Easy wrapping and unwrapping.
- Compatible with major sterilization processes.

STERILE DRESSING SETS

Consists of sterile products made of gauze, non-woven sheets & other single-use components such as forceps, gloves, etc.

All the necessary components are grouped in the order of use & sterilized in an unique pack.

Can be customised as per the end-user's requirement.
